

Participant ID: _____

RQ 1: How do comments affect program comprehension?

Please describe your experience with the code snippets that contained comments. How did the presence of comments impact your understanding of the code?

RQ 2: How do comments affect visual attention during program comprehension?

Were there any instances where your visual attention was drawn to comments within the code snippets? How did the presence of comments influence your gaze patterns while comprehending the code?

RQ 3: How do comments affect the linearity of reading order?

Did the presence of comments affect the order in which you read and interpret the code elements? Please explain how comments may have influenced the flow of your reading.

RQ 4: How do comments affect participants' gaze strategies during program comprehension?

Did you adopt a specific gaze strategy while navigating through code snippets containing comments? How did the presence of comments influence your choices in directing visual attention between code and comments?

RQ 5: How do participants perceive the role of comments in facilitating program comprehension?

From your perspective, how do comments contribute to your overall understanding of the code snippets? Do you find comments helpful in clarifying complex code segments or guiding your comprehension?

General Impressions:

Please share any additional observations, insights, or thoughts you have regarding the role of comments in program comprehension.

Closing:

Thank you for participating in this study. Your responses will contribute valuable insights to our research on the effect of comments on program comprehension. Your feedback is greatly appreciated.
